Client Profile

Founded in August 2014, Champion Anesthesia Consultants is an anesthesia group focused on providing services to patients in the hospital, surgery center, or doctor office setting.

The Challenge

Champion Anesthesia Consultants President Tim Tye, DO founded the group after a decade working as an anesthesiologist. After his previous RCM group went through a merger, he noticed service and RCM performance decrease. He sought a new billing partner he could count on to eliminate errors and focus on his group's needs with personalized service.

Arietis is a growing company but has no plans to merge or be acquired by another entity. That was very important to Dr. Tye since they had seen their long-term billing performance impacted by their previous service provider's merger.

“ I met and trusted Arietis's founder when she was with Northstar Anesthesia, she became a friend and advisor—when she founded Arietis, we reconnected, and I am glad we did.

Tim Tye, DO, President and Founder of Champion Anesthesia Consultants

Arietis Helps Anesthesia Group Thrive with Expert RCM Services

Success Story: Champion Anesthesia Consultants

The Solution

Arietis took over Champion Anesthesia Consultant's revenue cycle management services and immediately got to work finding the root cause of the inadequate collections, lost charges, and server errors Dr. Tye was experiencing with his previous RCM Partner.

“Almost immediately after starting with Arietis, collections improved and errors disappeared. All the issues stopped, and every single aspect of my RCM improved.

Tim Tye, DO, President and Founder of Champion Anesthesia Consultants

The aspect of Arietis's work that Dr. Tye appreciates most is their level of service and expertise. Arietis was different than RCM partners he had worked with in the past because Arietis did not just provide billing services, they provided healthcare revenue cycle consulting expertise.

“They provide me answers when there are issues and they are reachable, which is not common. Their expertise has allowed me to focus on other parts of the business.” said Dr. Tye.

Results Achieved

The higher level of service, expertise, and attention-to-detail Arietis provided helped Champion Anesthesia:

15-20%

Increase Collections Compared with their Previous Billing Partner

Eliminate Nearly all Billing Errors

Conclusion

Champion Anesthesia Consultants is thrilled to have an RCM partner they can count on to proactively manage their revenue cycle and help them grow their business with expert business advice.
